

Fabtek Replacement Encoders From **Joral Devices**

Joral Devices has rugged duty replacement encoders for your Fabtek processor head.

Joral Devices is offering military grade replacement encoders for the Fabtek processor heads. Our encoders are designed specifically for logging applications and are built to stand up under the extreme conditions of the timber industry. All our encoders have LED indicators for installation and diagnostics and are built to last!

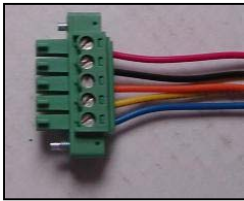

Specifications – Face Mount and Flange Mount Encoders

- 200 or 256 Pulses Per Revolution
- 4.5 to 15 VDC Supply Voltage
- For Diameter or Measuring Wheel Use
- Marker Pulse
- Easy-wire Connections for VDC, GND, A and B
- Built-in Over voltage and mis-wire Protection

Easy-wire Connector

Our Easy-wire connector makes wiring the replacement encoder as simple as possible. Our connector allows you to make your wiring connections to a separate terminal block, as shown to the right, and then easily snap the block in place.

Ordering Information

This encoder is part of the J1 line of rugged duty rotary encoders manufactured by Joral Devices. Please use the following part numbers when ordering:

Joral Devices P/N	Specifications	Encoder Function
J1-FT-256RS	256ppr, Round Body, Slotted Shaft	Measuring (Replaces Fabtek #19067)
J1-FT-256SR	256ppr, Sq Flange, Round Shaft, with Marker Pulse	Diameter
J1-FT-200RS	200ppr, Round Body, Slotted Shaft	Measuring
J1-FT-200RR	200ppr, Sq Flange, Round Shaft, with Marker Pulse	Diameter/Measuring (Replaces Fabtek #5881)
